Summary

Motivated computer science graduate with strong skills in Java, React Native, and web development. Quick learner with hands-on experience building full-stack mobile apps and websites. Eager to contribute and grow as a software developer.

Skills

Technical Skills: Java, TypeScript/JavaScript, React/React Native, API's, Linux / Bash, Git, C

Soft Skills: Quick learner, Adaptable, Self-motivated, Problem-solver

Projects

Forked (Mobile Application) – Creator & Full-Stack Developer

React Native, TypeScript, Expo, Google Places API, Firebase

- A location-based mobile app for discovering nearby restaurants and attractions, designed to make planning outings easier—whether alone or with friends.
- Fetched real-time data with Google Places API and displayed it using react-native-deck-swiper
- Integrated Firebase Authentication for user login and Firestore for secure data storage
- Managed all aspects of design, development and iteration

Fragmentation Visualizer – Sole Developer

C, Linux/Ubuntu, React, Node.js

- Developed a C program to simulate and visualize memory fragmentation for an operating systems course
- Implemented custom memory allocation and visual heap representation
- Built a React-based frontend to dynamically display memory layout and fragmentation in real-time
- Used Node.js as a backend layer to parse memory data and serve it to the frontend

Education

B.S. in Computer Science, *California State University, Stanislaus—May 2025*

GPA: 3.54

Relevant Coursework: Data Structures, Software Development, Theory of Algorithms

Diplôme Universitaire, *Aix Marseille Université (France) — Jan 2023 – Dec 2023*

Study Abroad Year – Completed coursework in French; earned French university diploma

Languages

English (Native), Spanish (Native), Italian (Proficient – strong comprehension and conversation skills), French (Advanced Conversational – effective in everyday communication)

Interests

Open-source development, Mobile App Design, Embedded Systems (Raspberry Pi), Robotics, Java Plugin Development, Language Acquisition, Travel, Digital Art, Creative Problem Solving

Additional Experience

Administrative Intern – Heffernan Insurance Brokers (*Work-Study Program*)

Menlo Park, CA – January 2018 to June 2019

- Assisted with daily office operations and guest reception
- Managed data entry tasks in Excel and organized internal records
- Gained experience in professional environments and teamwork

Community Involvement

Participated in open-source plugin discussions and helped troubleshoot issues for other developers
